(54) CONTROL METHOD AND CONTROLLER

(57)Abstract:

PROBLEM TO BE SOLVED: To simply download a program obtained from the external to a connected device.

SOLUTION: The controller is provided with a 1st storage section 58a that stores a 1st program inputted from the external, a 2nd storage section 58b that stores a 2nd program and started by the 1st program prepared in advance, and a processing section 58 that acquires information of a connected device based on the execution of the 2nd program stored in the 2nd storage section 58b and controls the connected device based on the acquired information.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
